Dear Parent, Guardian, Student, Teacher, Friend,

SPREAD THE WORD PLEASE Registration is this Sunday from 10:00 till 12:30. We do take registrations of new students at any time but this helps us immensely to have this special day for new Pre-School, Pre-K, new Kindergarten, and new students in all grades. Please tell your friends and neighbors to give us a call and check out the opportunities that make ICS a school that like no other! 281-5353 or mkish@icsmail.org.

- the academic freedom here to talk about our God any time
- have a low student-teacher ratio
- committed parents, staff, school board, and Pastor
- rigorous academics and fantastic standardized test scores
- the best field trip program in the state
- boundless opportunities to promote our mission, be a community, and perform service.

We are trying to be a school that Mary and Joseph would have loved to send their Son!

Parents should bring the child's baptismal certificate if not baptized at Immaculate Conception Parish, the stamped official birth record from the County (not the hospital) and social security number. (We will copy and return it that morning.) Kindergarten pre-screening dates are April 22nd and 23rd for sign-up.

BUILDING THE CHURCH OF THE FUTURE... We had 39 parishioners show up to discern for the 12 positions on the committee to build the new education center for our parish. The selection will be at the 5:00 Mass on March 21. Information is available in the kiosk in the gathering area of our new church if you missed the discernment. This is a huge commitment that should trump your other schedules---but the benefit will be great! Pray please for the Spirit to help us become one campus again! Margaret Raisch, Dan Whelan and Andrea Biske did a great job for us!

Protecting Our Planet

We all have a job from the day of our birth.
It’s an important one: to take care of our Earth.
So if we want to leave future generations a world that’s clean,
then we all need to try to live more green.
Our plants and our lungs deserve clean air.
Let’s put a stop to global warming. It’s only fair.
When we get in the car to go somewhere,
we are unknowingly hurting the air.
If everyone chose to ride the bus instead,
we wouldn’t have air quality days that are code red.
By taking the subway to get somewhere,
we are showing our Earth that we really care.
By choosing a car that on electricity can run,
we preserve the air and help the Earth a ton.
To be a green super hero,
we don’t need super powers or a cape. By walking instead,
we help keep our Earth (and your bodies) in better shape.
Or when it comes time to purchasing a car,
choose a smaller one. It’ll take you just as far.
So let’s all make better choices when it comes to our planet.
Let’s protect our Mother Earth and not take her for granted.

MOVING ON UP! WE WILL BE UPDATING OUR WIFI TO UBIQUITI ACCESS POINTS thanks to a generous donor. This upgrade will allow seamless and robust wifi connections for all devices on our campus. Where would we be without your generosity?

THANKS TO PARENTS AND FRIENDS for funding the African Children's Choir! Joy was in our midst! And the evening performance was even better!

Uganda could fit into Texas 3 times. There are 42 major languages in Africa. Most of the 18 children were orphaned and the Uncle who accompanied them was once separated from his family for 5 years and his father

murdered by Idi Amin. The Aunt who accompanied was one of 16 children and spent much of her young life fetching water for her mother to do laundry. Both have college degrees and join the 52,000 children saved by the choir since 1984. The children speak English and they love pizza, spaghetti, chicken and rice and their favorite village foods of cassava and matoke. Favorite subjects are division and composition. And they love the water parks in America. No pets, no vacations, but content with what they have, even the banana fiber ball they play with.

Here are a few comments:

Emma Tippen - I loved singing with them (because I am in choir). It was such a great opportunity to see them at church and school. I also got a CD and now I can listen to them all the time. That was one of the greatest nights of my life!

Tyler Wahle - Their drum skills are way better than mine. When I left I felt like the rest of the day was going to be great, which it was. It was neat how they live. I wish I could drum and travel around the world like them.

Today the African Children's Choir came to ICS, I thought....

Thanks to Kara Boyd for the letter below!

Dear Business Owner,

On March 20, Immaculate Conception School (ICS) will be holding its trivia night fundraiser. As you know, we would not be able to support our school without the generous support our local businesses continue to provide us.

For this year's trivia night, we are selling 12 - \$100 round sponsorships. This sponsorship will include the business' logo on all of the PowerPoint slides, where the questions will be read, for that particular round. Additionally, our emcees will do a mini commercial for your business before your round encouraging guests to patronize your business.

We want to give back to our sponsors that night by providing them with direct promotions. The success of this event can only be made possible through the generosity and support of the community.

We are asking for your \$100 commitment by March 18. Please make your checks payable to ICS Parents and Friends. Send your business' logo to knboyd2@yahoo.com and a brief company description to be included in the commercial.

If you have any questions regarding this, please contact Kara Boyd at (618) 444-6502.

Thank you in advance for your consideration. We appreciate all you do for ICS.
Sincerely, ICS Parents and Friends

COUNSELOR'S CORNER Tools for Children

Some of the many blessings of your child's Catholic education are the resources available to them for life. **The tool of Mass:** twice a week your child is fed by the celebration of the Eucharist accompanied by wonderful life lessons via the top-of-the-line homilies delivered by the priests who minister here. This is not just spiritual food, it is food for life.

The tool of prayer: I spoke to a child recently who was able to give examples of things from the little Purple book that she uses DAILY to deal with stress and anxiety. **The tool of music:** your child is surrounded by the gift of music at ICS, an ideal tool for joy and for all around personal improvement. Don't believe me? Read what the American Academy of Pediatrics published here

<http://www.healthychildren.org/English/healthy-living/emotional-wellness/Pages/Music-and-Mood.aspx>

The tools of service and giving:

Throughout the school year your child is given information and opportunities to assist people in need. This tool helps to keep a broader view of the world and less focus on the self. Why is this helpful? We are better when we are aware and concerned for the good of the whole. We are only as strong as our weakest link.

Sometimes we have the toolbox, but forget how useful the tools can be. Perhaps you need to open your toolbox!

JOHN 3:16 "*God so loved the world that he gave his only Son, so that everyone who believes in him might not perish but might have eternal life.*" **Jn 3:16** This is one thing I know. The second is that God so loved the world that he did not send a committee. The third is that God so loved the world that he did not say "like one another". He said "love one another". It is possible to love at all times. Love is respect. Sometimes love is walking away from an argument. Love is cutting

others some slack. This is just another reason I love and like my God! (And I also believe this is divinely inspired since it goes against human nature!)
